

California Teleconnect Fund: A Quick Guide

The California Teleconnect Fund (CTF) program provides a 50% discount on select internet and communication services to qualifying schools, libraries, hospitals, and other non-profit organizations.

The CTF discount is up to 50% of the monthly recurring charge for eligible broadband services.

CTF's goal is to help every Californian access advanced communications services in their local communities.

To qualify, non-profits must be tax-exempt, earn less than \$5 million annually, and offer qualifying services to communities in California.

Qualifying services include educational instruction, job placement or training, community technology centers, 2-1-1 providers, and healthcare CBOs.

The CTF program is funded through a surcharge on all customers who purchase intrastate telecom services.

Ready to see if your organization qualifies for up to 50% off your internet and communication services? OnDemand's expert technology advisors can help determine your eligibility and streamline the application process.
